

Accessing the Vision Navigation Portal Help Page

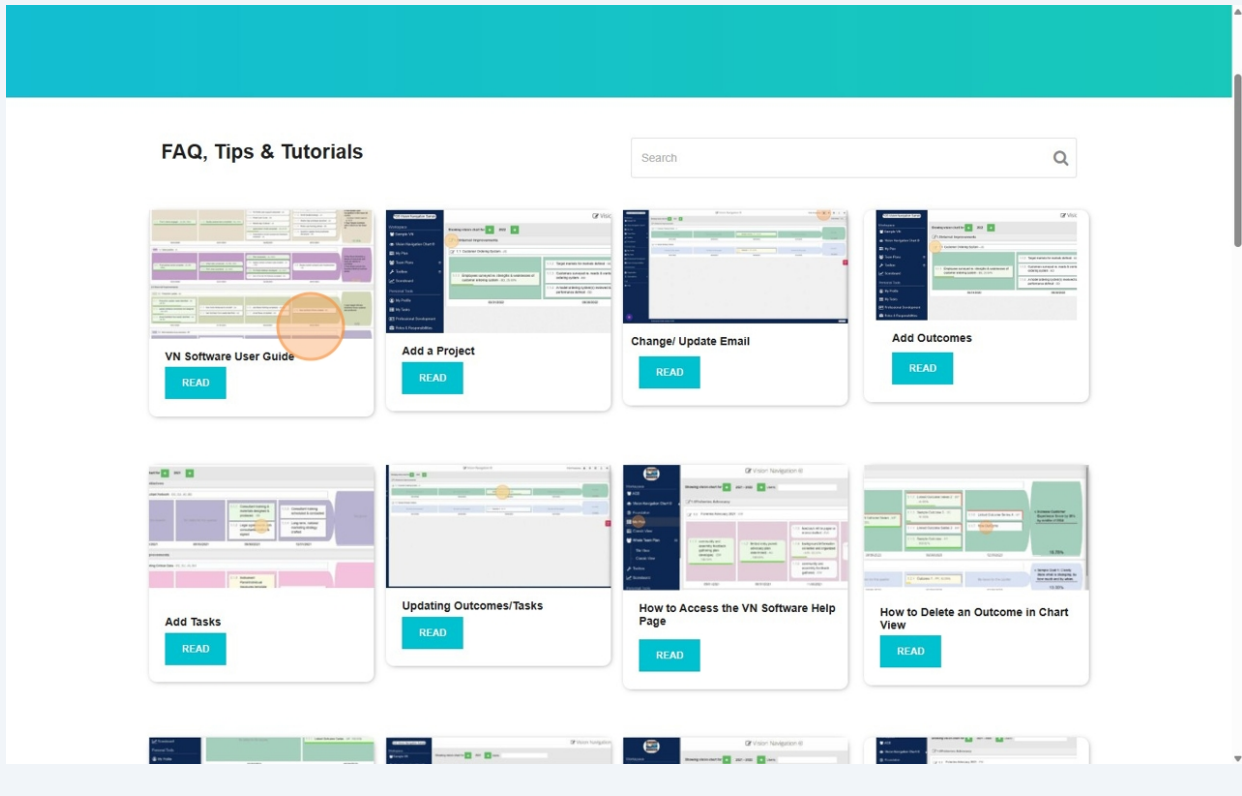

This guide provides a straightforward method for accessing the Vision Navigation Portal help page, ensuring users can easily find the resources they need. By following the steps outlined, individuals can quickly navigate the portal and enhance their understanding of the Vision Navigation software.

1 Click "Help"

The screenshot displays the Vision Navigation software interface. On the left sidebar, under the 'Administration' section, the 'Help' option is highlighted with an orange circle. The main content area shows a dashboard with various strategic initiatives and goals. The top navigation bar includes 'PGS Production' and 'Export PDF' options. The dashboard is divided into sections for 'Sample Category', 'Strategic Initiatives', and 'Internal Improvements'. Each section contains charts and data points, such as 'New Outcome #176' and 'New Outcome #244'. The 'Goals' section on the right provides instructions on how to insert and edit goals.

2

You will be redirected to our VN Portal help page, where you will find various tools to help you such as: the VN Portal User Guide, Video Tutorials and quick tips for working in the portal. Click on the topic you wish to learn more about.

3

Click "Watch" or the Red Play Button on the to access our Video Tutorials without leaving the VN Help page.

Close out of the Vision Navigation Help Page tab when you are done.
