

# How to Coordinate Outcomes and Change View from Yearly to Monthly and Weekly

This shows how a user can color coordinate linked outcomes for easy recognition of like outcomes in the chart view (either by person or a critical path project thread). Additionally, it will show how to change the view to see outcomes by month and week.

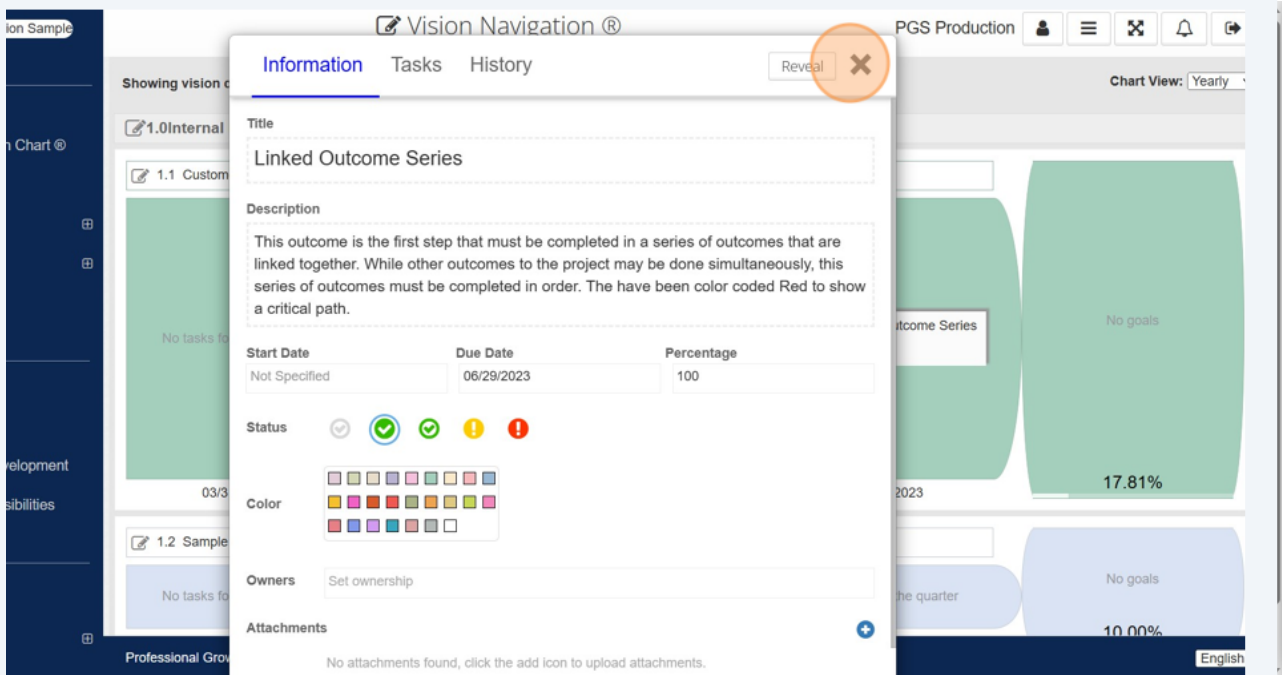

1 To color coordinate an outcome path, click on the first outcome.

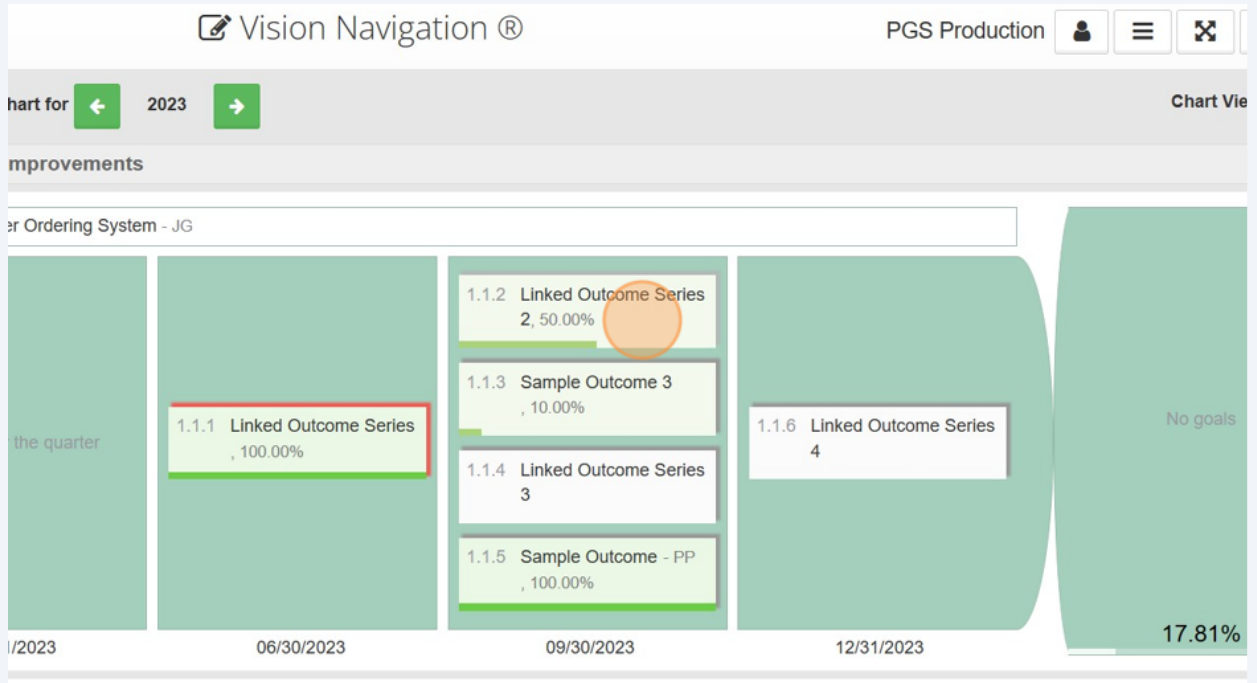

2 Select the color you want this outcome path to be highlighted as.

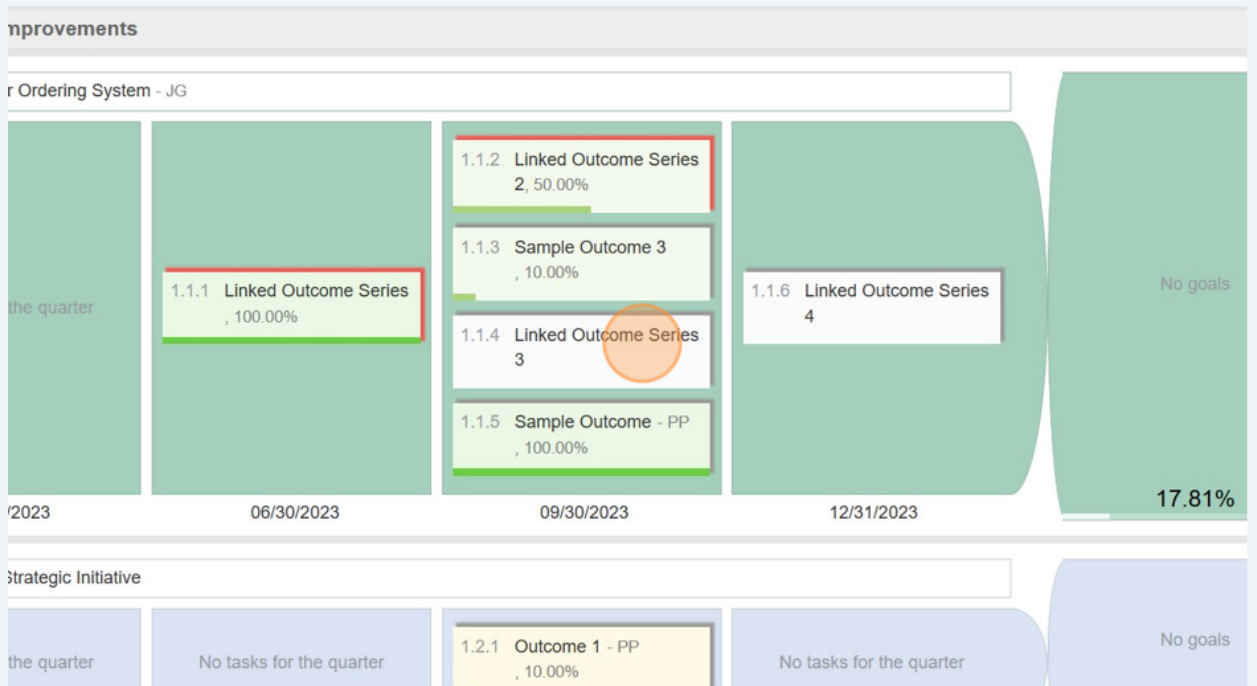

3 Close the Outcome box by clicking the "x"

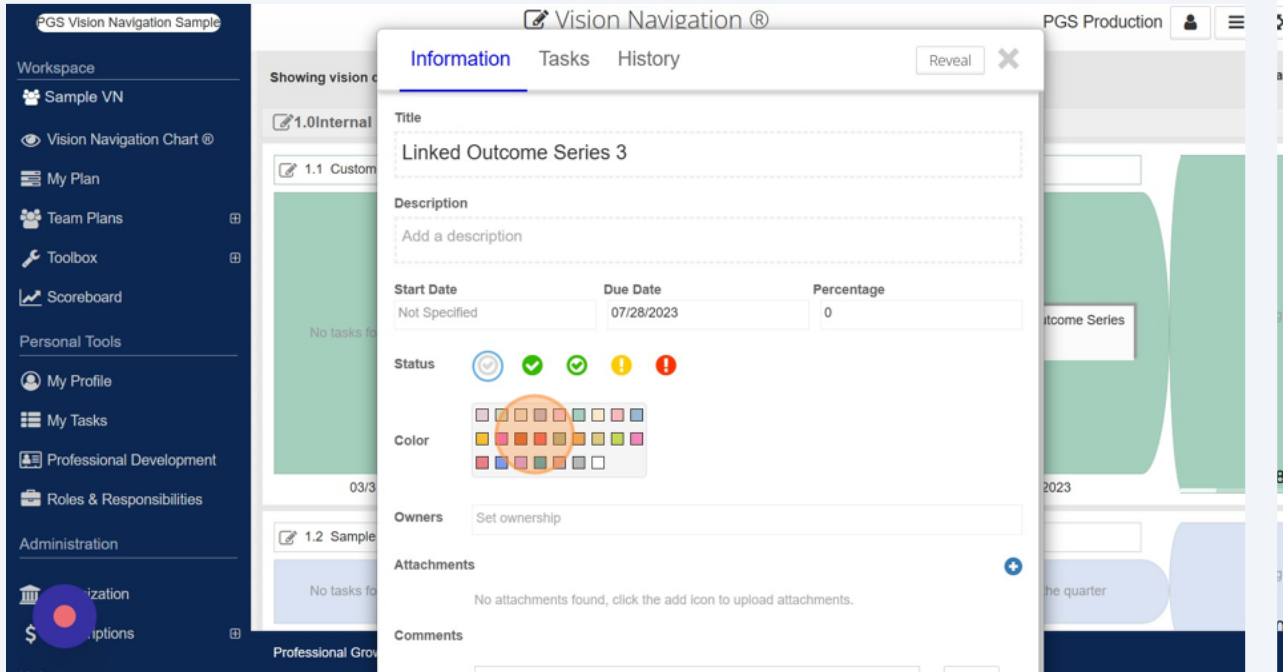

4 Continue on to your next linked outcome and repeat the steps above.

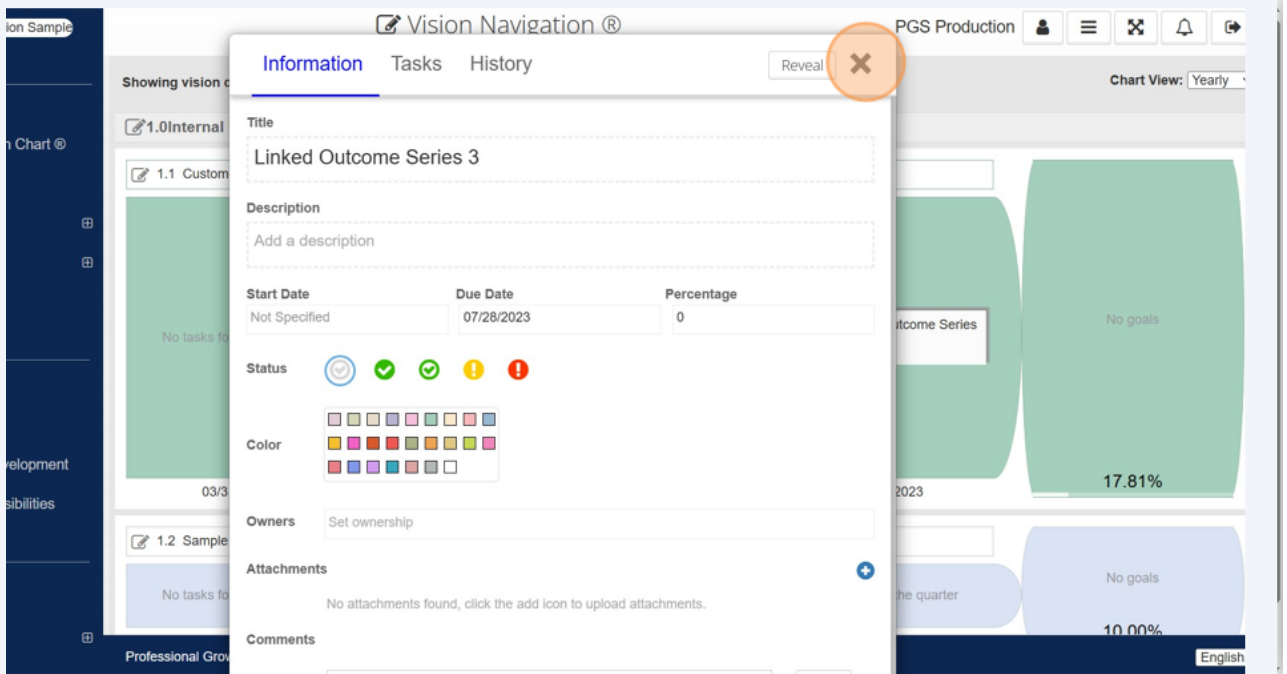

5 You may color coordinate your outcomes as it works for your team, by owner, or by a critical path within the outcomes where you cannot complete outcomes parallel to one another.

6 Select the same color for each thread.

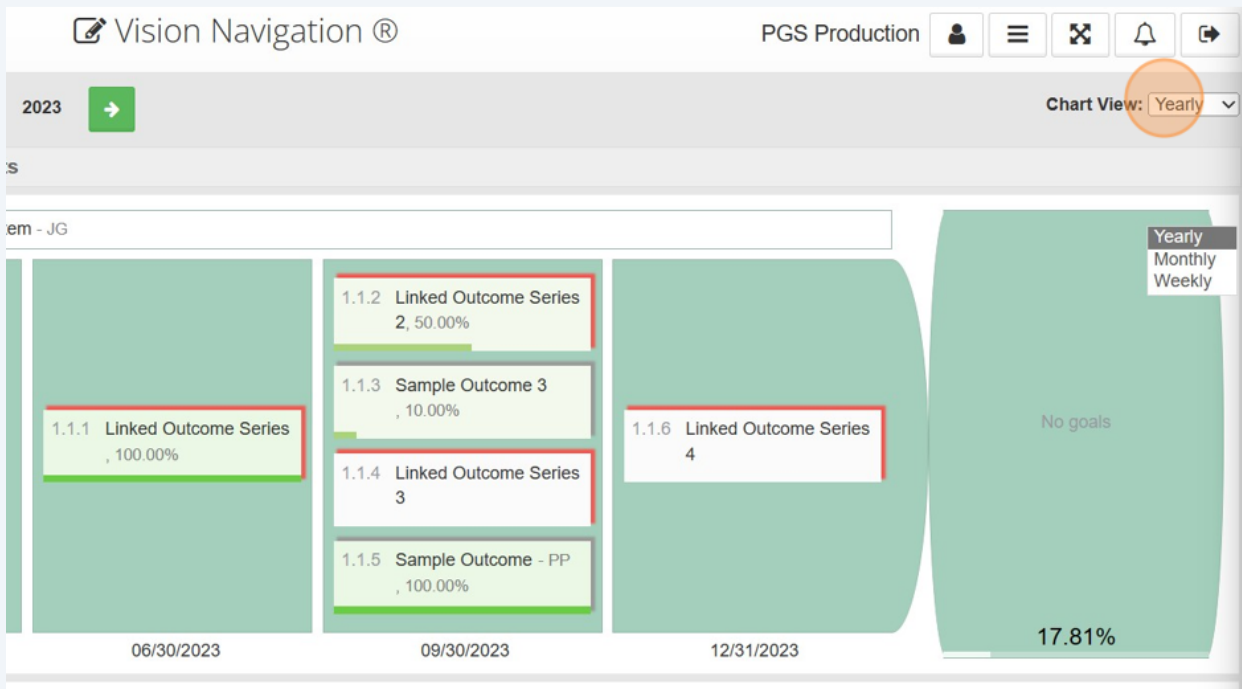

7 Your selection will be automatically saved, "x" out of the pop-up box to continue working.

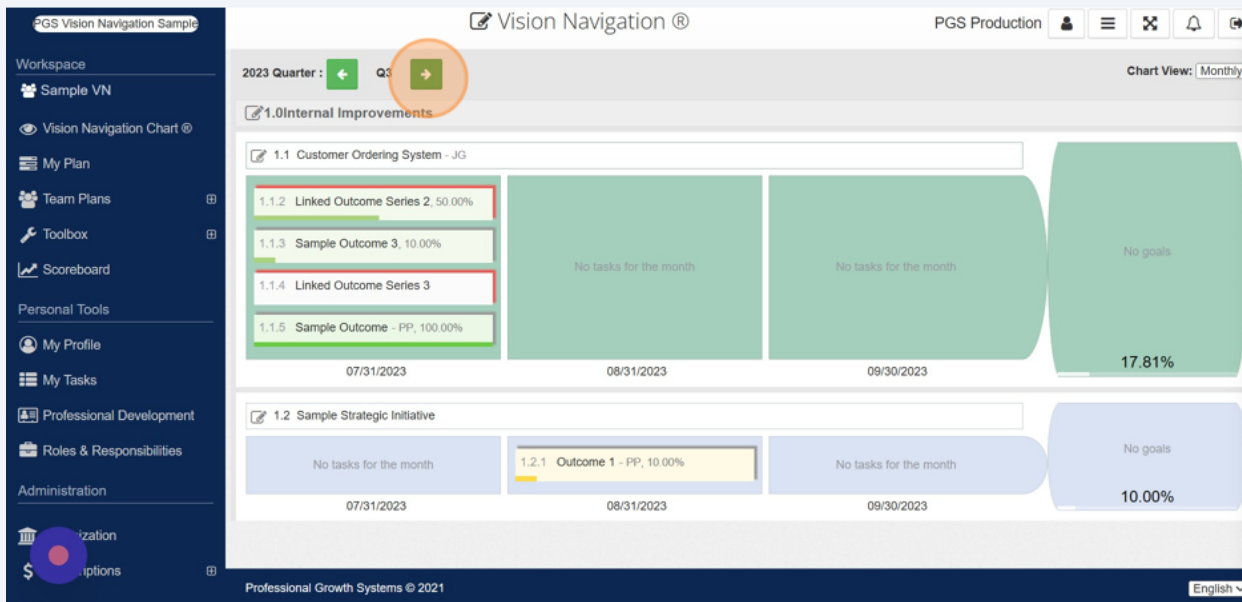

8

The Chart View can now be seen in Monthly or Weekly time intervals. Select Monthly in the drop-down menu in the top right corner.

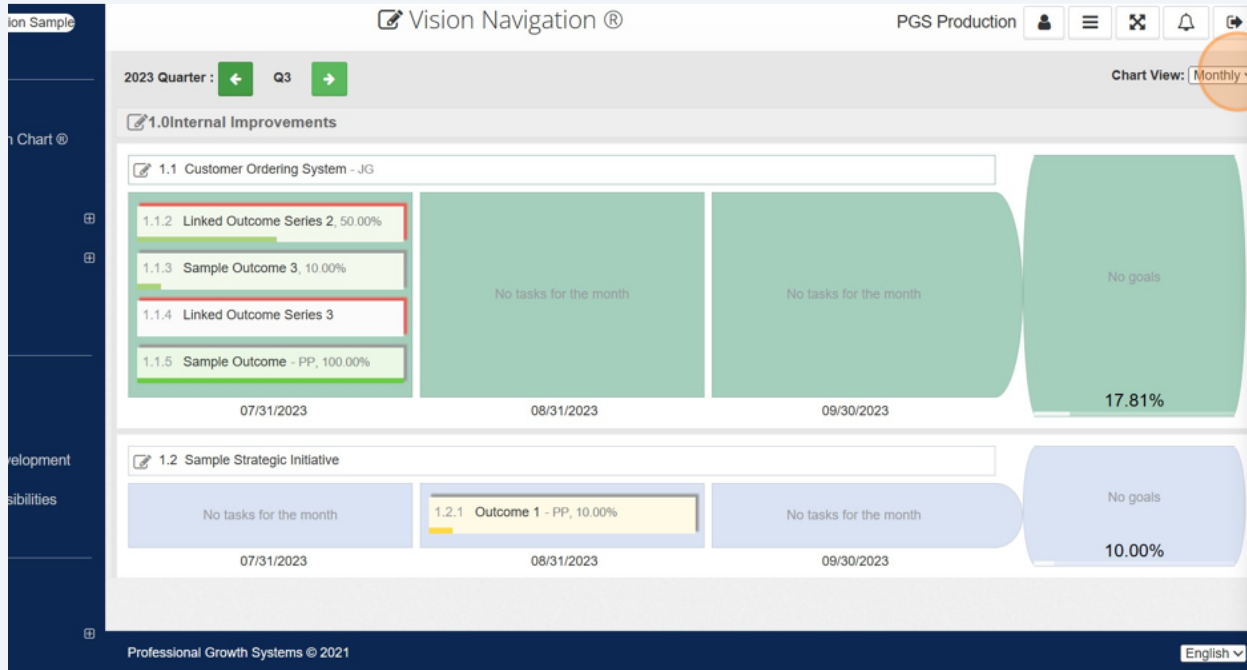

9

Months will be shown by project quarter, you may toggle between quarters using the green arrows.

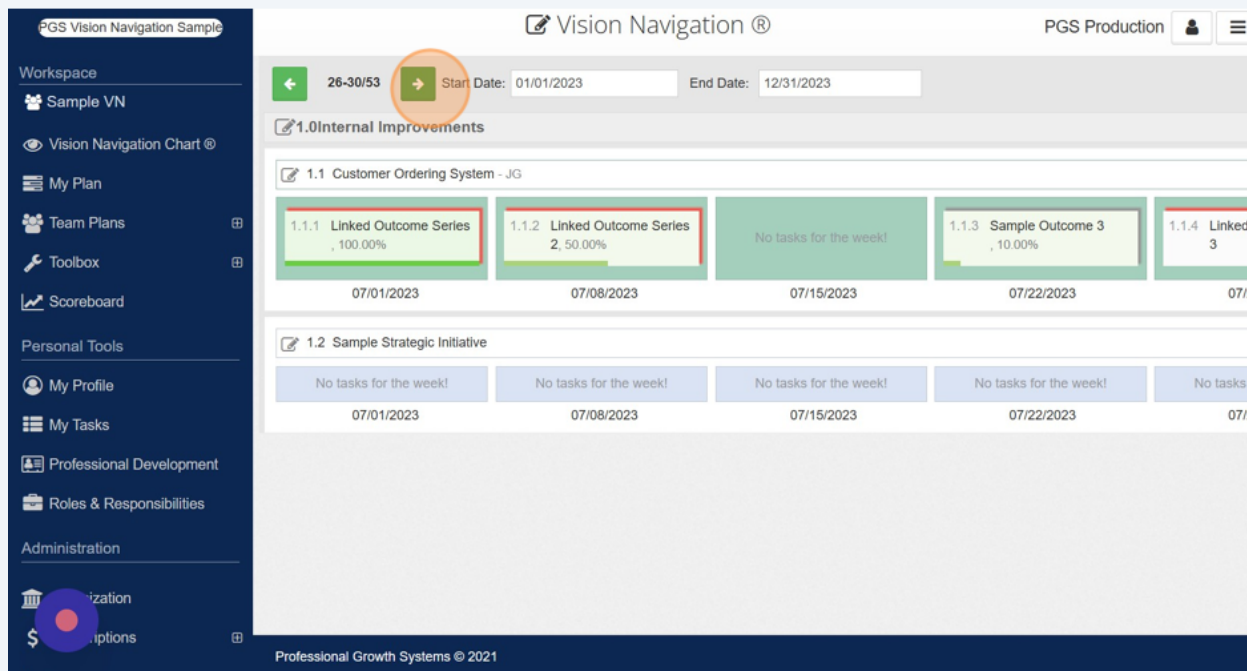

10

Having multiple outcomes in one month may be a lot to manage, narrow the view to weekly to see their due dates within the month.

11

This Chart View now shows there is one outcome due each week in the month of July. Toggle through the weeks using the green arrow or the start / end date fields.

12

Return to Yearly view by using the drop down menu.
